

What the room told us

Facilitator: _____ Date: _____ Group or table: _____

Write what you see, in the participant's words where possible. Do not fix it during the session; log it. Categories:

Confusing navigation	Missing information	Question	Bug
Feature request	Teacher concern	Student concern	Administrative concern

#	Category	Role	What they were trying to do	What happened or what they said	Priority
1					High Med Low
2					High Med Low
3					High Med Low
4					High Med Low
5					High Med Low
6					High Med Low
7					High Med Low

Questions for the room

Write down what people say, and who said it (role only is fine).

Question	Answers from the room
1. What currently takes the most time when preparing an examination?	
2. How much printing does assessment require?	
3. How long does it normally take before teachers can analyze results?	
4. What happens when a student misses an important lesson?	
5. How do HODs currently identify learning gaps across classes?	
6. What information would leadership like to see that is difficult to get today?	
7. Which part of this workflow would save teachers the most time?	
8. Which feature would you want your department to use first?	

What would need to be true for Manchester High School to adopt this?

Capture the discussion under each heading, then note the starting point the room chose.

People	Process	Technology	Training	Data	Implementation

Where would the room start? _____
